\* Including special key for fast mounting of the telescopic elements and the roller units.

\* No torsion with the strong Alu-profile, even at working-depths up to a maximum 3m!

\* Due to special design, the profile does not leave the screeding rail even when working with large quantities of screeding materials.

\* The three-dimensional handle of 230/300 is adjustable to the required angle-positioning

\* The special design of the handle enables the operator to use the weight of his body to exert pulling force in every position of the EP-profile.
